"Quantity" values are denominated in issues' local currency. "Market Value" is denominated in US Dollars.

Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or even all of your investment. Fixed Income investing is subject to interest rate risks. Bond prices and other fixed income product prices generally fall when interest rates rise. The Fund invests in high yield loans and bonds, commonly referred to as "junk bonds," including distressed securities, which are subject to greater credit risk (the risk that an issuer won't make timely payments of principal and interest) and market risk (the risk that the value of the Fund's investments may fall, sometimes rapidly or unpredictably, as a result of increasing interest rates or otherwise); loans and derivative securities, which may carry market, credit and liquidity risk (the risk that the Fund's investments may be difficult to sell at an advantageous time or price); foreign securities, which are subject to additional risks including political and economic risks. The Fund may also invest in structured products which bear the risks of the underlying investments and are subject to counterparty risk, credit risk, liquidity risk and market risk. The Fund is also subject to non-diversification risk, which may subject the Fund to greater losses in response to a single economic, political or regulatory development than funds that are more diversified.

Before investing you should consider carefully the Fund's investment objectives, risks, charges and expenses. A prospectus, which contains this and other information, can be obtained by calling 1.855.439.5459. Read the prospectus carefully before investing.

ALPS Distributors, Inc. is the distributor for the Barings mutual funds. ALPS and Barings are separate and unaffiliated.
