NOVEMBER 2021 / FACTSHEET

OVERALL
MORNINGSTAR RATING™*

1. The Fund invests primarily in equities and equity-related securities of companies incorporated in, or exercising the predominant part of their economic activity in any European country (including the United Kingdom), or quoted or traded on the stock exchanges in those countries.
2. The Fund is subject to risks, such as investment, equities and equity-related securities, liquidity, counterparty, currency risks and the risks of investing in small and mid-capitalisation companies.
3. The Fund's investments are concentrated in European markets and the Fund may be subject to higher volatility risk and the sovereign debt risk of certain countries within the Eurozone. Investing in emerging markets may involve increased risks, including liquidity, currency/currency control, political and economic uncertainties, legal and taxation, settlement, custody and volatility risks.
4. The Manager integrates environmental, social and governance (ESG) information into the investment process, which may affect the Fund's investment performance and, as such, may perform differently compared to similar collective investment schemes.
5. The Fund may have exposure to financial derivative instruments for investment or efficient portfolio management purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to financial derivative instruments may lead to a high risk of significant loss by the Fund.
6. Dividends may be paid out of unrealised capital gains at the discretion of the Manager which would effectively represent paying dividend out of capital. This amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment. Payment of dividends may result in an immediate reduction of the net asset value of the Fund per unit.
7. Investors may suffer substantial loss of their investments in the Fund.

OBJECTIVE

The investment objective of the Fund is to achieve long-term capital growth by investing in equities in Europe (including the United Kingdom).

STRATEGY

The investment team builds a focused, high conviction portfolio of carefully selected investments with the aim of producing relatively attractive risk-adjusted returns.
