SEPTEMBER 2020 / FACTSHEET

OBJECTIVE

The Barings Global High Yield Credit Strategies Fund ("the Fund") seeks to provide investors with current income, and where appropriate, capital appreciation.

STRATEGY

The Fund seeks to achieve its investment objective by investing primarily in a portfolio of high yield fixed and floating rate debt instruments issued by U.S. and European companies, with opportunistic allocations to structured credit assets and other corporate debt.

MARKET OPPORTUNITY

- Inefficiencies and pricing discrepancies between high yield bonds, loans, and structured credit in both the U.S. and European markets create unique investment opportunities
- A global high yield multi-asset strategy can simplify an investor's approach to high yield allocations. Also, when compared to single credit strategies, a global high yield multi-asset strategy may offer a more attractive risk-return profile
